

# Accorderie

*A fabulous story of time*

**Getting involved together in a different type of sharing.**

The 'Accorderies' were founded on the basis of a simple observation: when resources are limited, some people become isolated, excluded and undervalued within today's economic and social system.

Since 2011, the 'Accorderies' have grown steadily across France, underpinned by the shared values of **solidarity, social diversity, equality and the recognition of each person's abilities.**
